Many Changes In Harmony Council

The annual meeting of the ratepayers of the Municipal District of Harmony was held in Campbell's hall on Saturday Feb. 10th, with a fair attendance. The retiring councillors were D. McAulay, division No. 2; P. M. Patterson, division No. 4 and Adam Ferguson, division No. 5. In addition H. E. Johnson retired from division No. 6, leaving four councillors to be elected. Only one contest resulted in division No. 2, where D. McAulay is opposed by H. Williams, Al. Miller, A. Fitzpatrick and J. C. Worden were returned for divisions 4, 5 and 6 by acclamation.

The retiring councillors have been connected with municipal affairs during the greater part of the last decade, which included the most trying time that has been experienced. The very satisfactory state of municipal finances is largely due to their discretion during the bad years experienced in the early twenties. Their disappearance from the council chamber could not be regarded otherwise than with regret. The new members are all men of experience and will undoubtedly make a success of the of the municipality's affairs.

B. M. Roberts Farewelled

B. M. Roberts was the guest of honor at a smoker held in Geo. Mark's rooms on Saturday evening, when some thirty of his friends gathered to bid him farewell on the eve of his departure for Lethbridge, where he has a position with Pontiac Motors. A very pleasant evening was spent, one of the bright spots being the presentation to Mr. Roberts of a handsome wardrobe trunk. Mr. Roberts has lived here for some seven years and during that time has made hosts of friends who will regret his departure and wish him success in his new home.

Little Bow Bonspiel Was Big Success

The Little Bow bonspiel, completed on Tuesday night, was one of the most successful events in the history of this competition sponsored by the Little Bow Curling Association. Barons, Carmangay, Vulcan, Brant, Blackie and Champion were all represented with their complement of two rinks each. From the first the games were well contested and there were many close contests. The finals in both the Brewery and Burns events went thirteen ends to a conclusion. The winners were as follows: Brewery: 1st, McMillan, Barons; 2nd, Lebeau, Vulcan. Burns: 1st, Webster, Carmangay; 2nd, Anderson, Blackie. There was a large attendance of spectators throughout the games and the keenest interest was taken in the play which was exceptionally good. The first event in this bonspiel has been won by every club in the association, while Vulcan has the credit of coping the jewelry twice. This year's event should lead to increased interest in the Little Bow in the future, as exceptionally good ice and other accommodation made this year's event outstanding.

The bonspiel was in charge of A. W. Jopling.

P. M. Patterson, who retired from the council of the Municipal District of Harmony this year had completed ten years, 1918-1928, as reeve of the district. During his term of office the careful administration of affairs during the dry years up to 1923 is largely responsible for the very satisfactory condition of municipal finances at the present time. During this period he was also Conservative candidate for Little Bow provincial constituency. His retirement will be regretted by the entire district.

J. C. McNaughton Dies at Carmangay

A service was held to day at 10 o'clock in the United church for Alexander Campbell, the only son of Mr. and Mrs. James McNaughton who died at a quarter to twelve on Thursday morning from the result of hemorrhage of the brain and paralytic stroke on Monday morning. He was born at Danora, Man. April 5th 1900, and the remains were taken to Killarney, Man. for burial. His sorrowing mother and father and sister, Mrs. Kenneth McGraw, of Calgary, survive him. The heartfelt sympathy of the community is extended to Mr. and Mrs. James McNaughton who went to Killarney to attend the funeral. The pallbearers were: B. Cranston, W. MacLeod, D. H. Russell, M. McKay, W. MacFarlane and G. Russell. Flowers were sent to Killarney by the Agricultural Society, Town Council and Robert Burns concert committee, and many others.—Carmangay Sun.

Residents of Champion and vicinity will join in the expressions of sympathy to Mr. and Mrs. McNaughton in their sad bereavement.

Elks, Attention!

Don't forget the installation of officers, banquet and dance to be held in the Community Hall, Tuesday, Feb. 20th. Get your tickets from the secretary.

Jas. Groves Has Arm Broken

While pulling a pump from the well on Wednesday morning James Groves had the misfortune to sustain a bad fracture of his forearm. The pump slipped back as it was being raised catching the arm and bruised it badly in addition to breaking the bone. It is understood Mr. Groves will go to Calgary for an X Ray of the injury.

John Cook left on Thursday for Granum where he will visit his daughter, Mrs. Geo. Harper.

He's Coming!

Meet the representative of the "World's Largest One-Price Tailoring Organization" here on

NOTES AND COMMENT.

With the opening of the new hall on Friday night Champion will experience the direct benefit of community effort. While there is much more to be achieved there is every reason to congratulate ourselves on the fact that we have now one of the finest hall in the country.

NEWS NOTES

Of interest to farmers who are preparing for spring work will be the announcement that over 400 head of work horses will be offered at the annual auction sale of horses to be held by the High River Agricultural Society on March 5, 6 and 7. These horses have been consigned by members of the agricultural society and will be sold without reserve.

The announcement that a large group of British capital has been interested in a project for utilizing the surplus gas in the Turner Valley Oil and Gas field in Southern Alberta is conveyed in a telegram recently received by Premier Brownlee from Hon. Herbert Greisdorf, representative of the Alberta Government in London. It is pointed out by the Premier that as a result of the activities of Mr. Greisdorf's office, there has been in recent years a marked change in the attitude of British capitalists towards investments in Western Canada.

Expansion of the plant, equipment and activities of the Alberta Government Telephone will involve an expenditure of approximately \$1,000,000 before 1933, it is announced by Hon. V. W. Smith, Minister of Railways and Telephones. Included in the proposed improvements is a new exchange building in Calgary as well as construction of new buildings at Hanna, Halkirk, Grande Prairie, St. Paul de Metis and possibly one other point in the province. A new building is also planned at Drumheller with a complete automatic exchange and it is expected that automatic equipment will also be installed in the Red Deer building.

Of the 695 miles of branch lines construction which is proposed by the Canadian National Railways during the next three years 156 miles are in Alberta. The longest project in the province is 82 miles of new construction to run south easterly from Alliance to near Dubou on the Calgary-Saskatoon line of the C. N. R. In addition to serving a large area of good agricultural land this branch will considerably shorten the haul for grain and other shipments to Edmonton. From this new line a branch 25 miles in length will be built in a north-easterly direction from Bulwark. The building program in Alberta also includes the extension of the Lethbridge line from its present terminus at Hemaruka

to Scapa on the Hanna-Warden line, a distance of 41 miles following the route originally projected by the Grand Trunk Pacific.

Annual fair dates for the year were set at the closing session of the Alberta Agricultural Fairs' association in Calgary, the southern fair dates being as follows: Lethbridge, July 17, 18, 19, 20; Priddy and Millerville, September 18; Lethbridge, August 1, 2; Nanton, August 6, 7; Macleod, August 6, 7; Carmangay, August 8, 9; Okotoks, August 7, 8; Pincher Creek, August 13, 14; Langdon, August 14; Cardston, August 15, 16, 17; Magrath, August 9, 10, 11; Taber, August 7, 8; Brooks, September 2, 3.

Of Course You Can Enamel—Anyone Can

With KYANIZE Enamel (white or tint) you can apply a beautiful, porcelain-like finish on a refrigerator or any piece of furniture.

On a dresser—on bathroom fixtures, like mirror frames, medicine chests—on iron beds, or in fact on any surface, metal, wood or plaster, you can have the most beautiful enamel finish in the world—if you use KYANIZE Enamel.

Chosen by leading architects, painters and decorators for their finest work—yet it comes to you all ready for instant use. Flows like magic under the brush, levels out smoothly, never shows brush marks or "drips" and dries like polished marble. Elastic in the extreme and positively will not crack, peel or chip. In addition to pure white there are beautiful light tints of blue, greys and ivory.

GUARANTEE—Satisfactory results must be obtained when KYANIZE Enamel is properly applied to the proper surface or we will refund your money "for the empty can."

This Coupon Gets 45c Worth for 15c	
This coupon is worth 30 cents on the following combination:	
1 1/2-qt. can KYANIZE En. (White or Tint), reg. price \$9.30	15

A Banquet and Concert starting at 6 p.m., at which Special Talent will be heard, including the noted Len Davis Super-Six Orchestra, which will play for the Big Dance later.

Friday Evening, February 22nd.

ANGLO-AMERICAN FRIENDSHIP TO BE SAFEGUARDED

London, Eng.—It was learned in well-informed circles that proposals for a new approach to settlement of the disarmament question may be made by the British government to the United States in the near future.

There were definite indications of a feeling in British government circles that an entire new system of approaching the disarmament question was needed. It was understood that this attitude would be applied to all armament problems that are not already regulated by treaties.

It was stated that a new method of solution would be sought in an effort to safeguard Anglo-American friendship and ally suspicion and misunderstanding in both the United States and Britain.

State attempts to arrive with mathematical precision at a parity of naval strength, matching ship for ship, and ton for ton, is now viewed by an increasing number of British officials as having been the chief obstacle to an armament agreement between Britain and the United States. They have been able to use little indication of the possibility of agreement on an equality basis.

Therefore they are now considering what other method can be used for the solution of the armament problem, and one which would be based largely on mutual confidence and goodwill.

The industrial Britons who have been trying to shape this government's United States policy so that it would lend toward conciliation in all difficulties, have been kept away from any action that might involve disputes on technical questions. They have feared that such discussions would arouse public misunderstanding on both sides of the Atlantic.

This attitude applies, for instance to the United States Senate resolution proposing a conference on maritime law. The split separating the traditional British and United States views on this subject is so wide that in some high quarters it is believed that such a conference would be unable to reach an agreement. Therefore they have considered that it would be undesirable, because it might arouse further international misunderstandings.

Amend Post Office Act

Full Has Been Given First Reading in House of Commons

Ottawa, Ont.—A bill amending the post office act was given first reading in the House of Commons. The measure concerns the ownership of newspapers. It provides that a sworn statement must be furnished to the post office semi-annually giving the names and addresses of owners, owners and stockholders and other particulars. Religious publications are not affected and the names of small stockholders in the newspaper are not included in the bill. It is proposed that failure to comply with these provisions may incur a penalty of \$500. The bill also provides for the removal of advertising material from the mails. A further clause provides that paid reading matter must be marked as advertisements. Neglect to comply with this provision under the bill would incur a fine of not less than fifty dollars and not more than five hundred dollars on conviction. The measure was introduced by T. L. Church, Conservative, Toronto northwest.

Dispute Was Settled

Canadian Workers Re-Installed in Old Positions in Toronto

Ottawa.—In the House of Commons H. B. Addison, Liberal, East Calgary, asked the Minister of Labor whether he had any information to give the members with reference to German immigrants brought into this country to replace Canadian workers in Toronto.

Hon. Peter Henry, who replied that he was now able to inform the House that a settlement had been reached whereby the Canadian workmen were re-installed in their old positions at the same wages which they received prior to the dispute.

Forestry Association Officers

Ottawa.—Brigadier-General W. B. White, Montreal, was elected president of the Canadian Forestry Association, at the convention here. Directors include Charles Hayden, Calgary; T. S. Dixon, J. D. Robson and P. A. Wilson, all of Vancouver.

W. M. H. 1778

To Prevent Grain Mixing

Changes in Wheat Marketing To Be Demanded By Western Members

Ottawa.—Draught changes in the methods of marketing wheat are being demanded by the members from the prairie provinces and those demands will find their echo in the House this session from both Liberal and Progressive members.

When Robert Gardner, Progressive leader, in the House the other evening demanded the resignation of the present board of grain commissioners and the establishment of a new board of five to administer the Canada Grain Act, he expressed the views of many in the prairie provinces. Yet the Liberals are asking for more.

Before the present session is advanced there will be a demand for some means to prevent mixing at the terminal elevators, for changes in the personnel of the board of grain commissioners and for action in the direction indicated in the report of the agricultural committee last session regarding the establishment of protein content as the chief measure of the market value of wheat.

Large Butter Consumers

Canadians Use More Butter Than Any Other Nation

Vancouver, B.C.—Canadians are the largest consumers of butter in the world, declared Dr. J. D. Rudick, Dominion Commissioner of Agriculture, in addressing the Western Canada Dairy Convention here on 'Dairy Progress' yesterday. Their per capita consumption here is put down at 27 pounds to which must be added 3½ pounds of cheese. Increased consumption is due, according to Dr. Rudick, had led to a large drop in butter exports and in this connection he referred to the huge consumption of dairy products by the summer tourists who annually invade Canada. This trade alone now accounting for between 15,000,000 and 15,500,000 pounds of butter every year.

Pay Well For Extra Work

Delegates To Reparations Conference

Paris.—Delegations to the reparations conference have made the employees about the Hotel George V. view its results as held happy.

The conference has entailed considerable extra work for the hotel managers and the delegates have been paid to repay it with tips.

Particularly have the telephone switchboard personnel benefited there is just one grumbler. Late the morning, who says the delegates are the poorest customers he ever had and that he has yet to serve other delegate or substitute at his bar.

"It would seem," he says, "that all fourteen delegates are from prohibition countries."

Rapid Comeback For Britain Predicted

Sir Alfred Cope Sees End of Period of Depression

Montreal.—That Great Britain was rapidly coming to the end of the period of depression and that she would come back to the foremost position she once held was predicted by Sir Alfred Cope, under-secretary of state for Ireland from 1919 to 1922.

He is at present managing director of the Amalgamated Collieries of South Wales and is here in the interest of marketing Welsh coal in Canada. He said the coal industry had introduced economies long over-

Next Convention In West

Canadian Swine Breeders' Association Will Meet in Regina

Quebec.—A resolution asking the provincial government to conduct further researches in an effort to control the ravages created in intestinal parasites in the swine herd was adopted by the Canadian Swine Breeders' Association at its annual meeting here. More than one hundred swine breeders from all over the Dominion were in attendance. The next meeting of the association was re-installed in their old positions at the same wages which they received prior to the dispute.

Had Narrow Escape

Alfred, Derbyshire, Eng.—Passengers on the night express from London to Glasgow had a narrow escape when the locomotive and baggage coaches were derailed but the coaches kept to the rails. No passengers were injured but the express messenger and seven other men were killed and believed to be under the derailed locomotive.

Trapped In Burning Cabin

Neighbor Unable To Help Rescue Of Three Prospectors

Stout Lookout, Ont.—Trapped by flames in their tiny cabin, three prospectors lost their lives at the narrow Woman Lake Forest, according to word reaching here. With them perished their four dogs which were chained to the outside of the building.

The three victims were Tony Tyrrell, and men named Gougan and Vioget.

No word is yet available as to where the three came from. Terrified barks of the dogs roused R. F. Dyes, sleeping in a shack some distance. He rushed outside to see the cabin in flames but found it impossible to effect a rescue. He could not even get near enough to release the still living dogs.

Word of the tragedy was brought out by aeroplane.

WILL MAKE BID FOR LARGE AREA IN FAR NORTH

Ottawa.—While cabinet ministers and western members of Parliament will not discuss, openly, the announcement that Premier J. G. Gardiner, of Saskatchewan, will seek a vast extension of the area of that province when he comes here to confer with the Dominion Government, there is the keenest interest in his proposition.

The reaction on the whole, is most unfavorable and one appears already to be considering the possibility of granting to Saskatchewan the territory immediately to the north of Manitoba.

This attitude of course is more marked among Manitoba members than others, but the general views of eastern members and ministers is that to grant Mr. Gardiner's request would precipitate a quarrel between the provinces which would have far-reaching results and might, conceivably, become an outstanding national issue.

Some members believe that no change in the present boundaries should be made until the northern areas are populated and that there should then be created new provinces to the north of the present prairie provinces. However, the majority of members agree that this ought not to be done, but that when the time comes, the present provinces should be extended northward.

The motives behind Mr. Gardiner's demand are well appreciated. The area to the north of Manitoba and Saskatchewan extending to the Arctic Ocean and bounded on the east by Hudson Bay and on the west by a line drawn from Coronation Gulf to the present western boundary of Saskatchewan, is described by one of the richest mineral areas in Canada. About one-third of the famous pre-Cambrian shield lies in this section of the province, and prospecting financed by two of the wealthiest mining corporations in Canada, is proceeding north of Chesterfield Inlet and along the Copper Mine River, running into the Arctic Sea. Within a few years trend new mining development may take place in this northland.

A CRISIS OF CONTRASTS

This is the second South America-Africa cruise by the Egyptian Pacific liner, 'Duchess of Atholl' into the stream, 350 passengers left New York recently on a 'Crisis of Contrasts' that will take them to twenty ports in the West Indies, South America, Africa, Egypt, Italy, Monaco and France.

This is the second South America-Africa cruise by the Egyptian Pacific liner, 'Duchess of Atholl' into the stream, 350 passengers left New York recently on a 'Crisis of Contrasts' that will take them to twenty ports in the West Indies, South America, Africa, Egypt, Italy, Monaco and France.

With tiny pants tugging in their efforts to nose the twenty thousand ton Canadian Pacific liner, 'Duchess of Atholl' into the stream, 350 passengers left New York recently on a 'Crisis of Contrasts' that will take them to twenty ports in the West Indies, South America, Africa, Egypt, Italy, Monaco and France.

This is the second South America-Africa cruise by the Egyptian Pacific liner, 'Duchess of Atholl' into the stream, 350 passengers left New York recently on a 'Crisis of Contrasts' that will take them to twenty ports in the West Indies, South America, Africa, Egypt, Italy, Monaco and France.

PASSES EXAMINATION

C. B. Kay, the first Canadian student to pass the final examination of the chartered institute of secretaries, London, England.

Consider Tunnel Idea Nothing But Gamble

Should Not Be Started Without Investigation, Is Opinion Of Expert Engineer

London, Eng.—The project for the construction of a tunnel under the English Channel is a gamble.

This is the considered opinion of John Dalrymple-Hay, one of the world's authorities on tunnel engineering, who, in an interview with International News Service, declared that the project for a tunnel under the English Channel is a gamble.

Dalrymple-Hay's word must be received with deference. He is an engineer with unrivaled experience in this sort of work. He acts as consulting engineer for the company controlling London's subways, and has the design and supervision of 100 miles of underground tunnels in London.

"The channel tunnel project is a gamble purely and simply because there is no authority who can say with certainty what may be the thickness of the strata in the middle of the English Channel."

Again the whole thing is a gamble because it is being done blindfold. As a practical engineer, I say that there is not a particle of evidence to show the thickness of the strata under the sea. Geologists say they have taken fossils and samples from the sea bed, but to an engineer that is just so-so. They know nothing of the depth of the chalk."

Will Make No Change

Thanksgiving Day and Armistice Day To Be Celebrated As Two Distinct Festivities

Ottawa.—Thanksgiving Day and Armistice Day will continue to be celebrated in Canada as two distinct events and there will be no weakening of the grasp of the most severe winter in the memory of living men.

At London, the French sentry on duty with the army of occupation in Germany, was frozen to death. In other sections collapsed due to cold and as many as possible were withdrawn from duty. The temperature was 11 below zero at Wiesbaden.

Advices received by Central Radio at Vienna said 20,000 persons had assembled at one point in Budapest to receive cold ration from the Hungarian government.

Several deaths due to cold were reported from Budapest, including a night watchman and his wife, who were frozen. The Hungarian capital was paralyzed by snow, which halted virtually all traffic, the United Press correspondent reported.

England was swept by severe snowstorms and communications were disrupted. The influenza epidemic, combined with cold and cold weather accidents, has caused more deaths in the district which have reached a total of well more than 10,000 during the winter, according to reliable statistics from 11 capitals.

The statistics include: France—2,500 deaths due to influenza and similar diseases. England and Wales—2,100 deaths due to influenza, cold, shipwrecks. Spain—1,500 deaths due to influenza, cold, shipwrecks. Germany—1,400 deaths due to influenza in larger German cities. Czechoslovakia—Influenza epidemic increased death rate in last two months 55 per cent. in rural areas. Italy—Scores of deaths attributed to cold, and estimated increase of four per cent. in death rate. Holland—200 deaths from influenza and cold. Austria—150 deaths due to cold and influenza.

May Require Aid

Of British Parliament

To Smooth Out Difficulties In Connection With Manitoba Act

Ottawa.—The possible necessity of invoking the legislative machinery of the British Parliament to smooth out certain difficulties of certain laws in Manitoba, was raised by R. W. Craig, counsel for the province at a session of the Manitoba law society here.

During the course of his argument, pointed out that the British Parliament had passed the Manitoba Act of 1870 and provision had been made whereby it could not be changed by the Dominion parliament.

It might be necessary, in order to change the present financial terms between the provinces and the Dominion, to have the British Parliament validate such change by statute, Mr. Craig declared.

Historical authorities were quoted and precedents cited by Mr. Craig in support of his contention that the Dominion's interest in the province's laws were primarily of legislative and not of private proprietary rights.

Stricter Penalty For Violating Drug Act

Amendments Under Consideration To Curb Traffic In Narcotics

Ottawa.—The House of Commons considered in committee of the whole bill to amend and consolidate the opium and narcotic drug act. The measure provides increased penalties in cases of conviction for selling, giving away, or distributing drug without a license from the minister of national health. Under the clause inserted a judge may at his discretion sentence a convicted person to be whipped, in addition to the imposition of fine and imprisonment.

Another change provides that persons convicted of infractions of the act shall be liable to payment of costs of prosecution. Other amendments are introduced, a number of which are for purposes of clarity.

INTENSE COLD IN EUROPE CAUSES GREAT SUFFERING

London, Eng.—The almost unprecedented siege of cold weather has taken a great toll of life in Europe in the last week, and despatches from almost every country between the North Sea and the Bosphorus brought reports of most critical situations.

Deaths due directly and indirectly to the cold weather have gone well over 10,000 since Monday, and there appears to be no weakening of the grasp of the most severe winter in the memory of living men.

At London, the French sentry on duty with the army of occupation in Germany, was frozen to death. In other sections collapsed due to cold and as many as possible were withdrawn from duty. The temperature was 11 below zero at Wiesbaden.

Advices received by Central Radio at Vienna said 20,000 persons had assembled at one point in Budapest to receive cold ration from the Hungarian government.

Several deaths due to cold were reported from Budapest, including a night watchman and his wife, who were frozen. The Hungarian capital was paralyzed by snow, which halted virtually all traffic, the United Press correspondent reported.

England was swept by severe snowstorms and communications were disrupted. The influenza epidemic, combined with cold and cold weather accidents, has caused more deaths in the district which have reached a total of well more than 10,000 during the winter, according to reliable statistics from 11 capitals.

The statistics include: France—2,500 deaths due to influenza and similar diseases. England and Wales—2,100 deaths due to influenza, cold, shipwrecks. Spain—1,500 deaths due to influenza, cold, shipwrecks. Germany—1,400 deaths due to influenza in larger German cities. Czechoslovakia—Influenza epidemic increased death rate in last two months 55 per cent. in rural areas. Italy—Scores of deaths attributed to cold, and estimated increase of four per cent. in death rate. Holland—200 deaths from influenza and cold. Austria—150 deaths due to cold and influenza.

Italy—Scores of deaths attributed to cold, and estimated increase of four per cent. in death rate. Holland—200 deaths from influenza and cold. Austria—150 deaths due to cold and influenza.

Austria—150 deaths due to cold and influenza.

DECIDE AGAINST ANY RETURN TO TITLES IN CANADA

Ottawa.—There will be no return to titles in Canada. By a vote of 114 to 60 the House of Commons defeated a resolution moved by C. H. Tupper, Conservative, for the restoration of titles of nobility in Canada.

The vote cut across party lines. It showed the Prime Minister and Hon. R. B. Bennett, Conservative leader, uniting in support of the motion. It divided the cabinet, the majority of its members present opposing the resolution. It divided the Liberal and Conservative parties, the majority of Liberal members present opposing the resolution, while the majority of Conservatives found themselves in support of Mr. Tupper's proposal.

Only in the smaller groups of the House was there unanimity of opinion. Progressives, members of the U.F.A., Independents, and Labor members all united in opposition to this resolution.

Mr. Tupper's resolution did not advocate the return of titles to Canada. It asked merely for the appointment of a special committee of the commons, consisting of 11 members, to investigate a report upon the advisability of such a measure.

The committee, after investigating the address to His Majesty the King, which was adopted by the House in May 1919, dealing with the restoration of titles of nobility to His Majesty's subjects, decided that it was not desirable to restore titles of honor or titular distinctions under His Majesty's subjects domiciled or ordinarily resident in Canada.

It also asked that the committee consider and report upon the propriety of the restoration of titles of nobility to His Majesty's subjects domiciled or ordinarily resident in Canada.

The debate, however, indicated that many members of the House were of the opinion that the restoration of titles of nobility to His Majesty's subjects domiciled or ordinarily resident in Canada was not desirable.

Mr. Tupper, himself, who closed the debate, pointed out that his resolution contained not a word about the restoration of titular distinctions. He said he did not advocate the revival of titular distinctions in Canada, but he felt that His Majesty should be in a position to reward merit with some simple recognition on the advice of the government of the day.

A number of members who participated in the discussion voiced strong opposition to the conferring of titles. William R. Irvine (U.F.A.), Conservative, expressed the opinion that a really big man did not require a title, and a man who was not big could not be helped much by tagging one.

Reparations Payment

Amount Of \$250,000 To Settle Claims To Canadian Citizens

Ottawa.—The House of Commons, Hon. Bernard Huffer, secretary of state, moved the adoption of a resolution for the payment of reparations claims to Canadian citizens up to a total amount of \$250,000. Debate was adjourned.

Strong opposition was voiced by Hon. H. H. Stevens (Conservative, Vancouver Centre) against the amount which the government proposed to pay. Mr. Stevens believed that with the exception possibly of a certain class of claims all amounts payable by the reparations commissioner should be paid in full.

Planning Market Branch

Vancouver.—Official announcement that the provincial government intended to shortly establish a market branch was made by Premier R. F. Tomin, at the banquet here of the Western Canada Dairy Council Convention.

Honor List Expected

London, Eng.—It is expected the king's honor list, postponed from New Year's Day on account of His Majesty's illness, will be published before the end of the present month. It will include a very short and will not confer any peerages.

Heads League Society

Ottawa.—Dr. H. M. Tory, president of the National Research Council of Canada, was elected president of the heads league society at the seventh annual meeting recently.

CHAPTER XIV.—Continued.

Hand stripped to the waist. Connie's eyes rested on the mighty frame of this huge blond; the bunched and rippling muscles, the great chest covered with a mat of thick hair, and the enormous limbs of his glances then turned and roved to the man who was to fight for her honor. Donald's eyes were like burning stars. His face had regained its color, but was contorted with a passion that made him seem unnatural. Yet he appeared a mere stripling in comparison to his burly antagonist.

A moment Connie became a primitive woman. She felt as though she could read and tear. Her eyes darted blue lightnings of wrath toward the man who had insulted her, and her small hands clenched in impotent fury. Her nails cut into her palms as she exercised every ounce of self-control to keep from screaming aloud. Donald was fighting for her. She caught her breath in a quick stab. Her heart was beating with alternate throes of joy and fear. A sudden fit of trembling seized her, and her head felt light and giddy.

Hand's reputation as a rough and tumble fighter was well known throughout the province. It was his proud boast that he never had been whipped. He advanced now, a sinister leer on his face. Andy ran to Donald's side.

"Box 'im, Donnie," he whispered. "Don't let 'im get 'old on you." "You goin' to vip me? De dude goin' to vip me?" Andy scoffed. Hand felt natural access.

He came slowly forward with arms spread wide, his thick fingers working convulsively. Donald leaned slightly forward and waited. As he heard him, Hand tore in, sure of himself in the rough and tumble. Donald edged up to the big man's first rush and shot his left to his face. He was not properly set for the blow, but it stung Hand to madness.

"Ach!" he grunted, "stand and fight you d—d coward!"

He came on, his arms swinging wildly. Leaping aside, Donnie's head struck a stump, and before he could regain his footing the giant's arms were around him in a bone-crushing grip. His hands were clasped at Donald's waist, and the big head was pressed suffocatingly against his throat. Donald was forced slowly backward to strike the ground with a thud, the big man on top.

"Now I got you!" panted Hand as he released his hold on Donald's waist and aimed a blow at his face. With a quick movement the under man turned face down. Hand struck him viciously as he lay prostrate under him.

Connie's eyes were wide with horror, and a muffled scream escaped her lips as the blow fell.

With a quick, convulsive movement of his little body Donald threw Hand from his back and sprang to his feet.

Whirling quickly as the foreigner came toward him, he sent in a volley of blows to his opponent's face. Hand staggered, but he did not fall. His lips were cut and bleeding; his nose was broken; and he sprang out several broken teeth. Any one of the blows landed was sufficient to send an ordinary man down for the count, but still the gargantuan giant came on.

In and out Donald flashed, his arms moving like steel pistons. Hand could not keep away from the punishing left hand of his lighter opponent. Men not trained in the science of boxing have no punishing power in their left hand, but depend solely on their right. Such was the case with Hand. His style did not vary for a moment. With head low and hands close together, he swung wildly in the hope of landing a lucky punch, or striving to get a hold on his adversary. Donald's hand kept beating a tattoo on his rock-like jaw, but still Hand came forward, slowly and relentlessly as a steam-roller.

Crowding Donald back to the line of fence spectators, Hand rushed into a rib-cracking embrace. Donald heaved the blow, but not before the brute had butted him over the eye. With the blow Donald's senses reeled and the blood gushed from a wide gash on his brow. A blow from the foreigner's big fist hit him caught him over the heart and sent him staggering to his knees. With a curse the big man came after him.

Andy shouted hysterical words of advice.

Donald came slowly to his feet and mechanically side-stepped as Hand came stumbling toward him. Don did evade him until his head cleared, and then summoned his remaining strength into one mighty blow that landed flush on his opponent's midriff. The blond beast came to his knees with a dull grunt.

"Go after him!" yelled excited voices from the crowd.

Donald stepped forward with fist drawn back to strike the kneeling man, but his arm fell to his side and he shook his head. "Get up!" he commanded hoarsely.

Even the strikers gaped at the appreciation of this honorable act. A murmur of applause came from both sides. The foreigner shook his shaggy blond head and came uncertainly to his feet and the sanguinary battle went on. Both men were tired. Hand's head was coming in from choking gasps from his tortured lungs, and his face was a smearing of blood. Donald's left eye was closed, his lips were split, and the gash over his eye had covered his body with blood. His arms were weary from pounding the head of his adversary. The big logger's strength was waning; the pounding administered by Donald was beginning to tell. But Donald was weak to avoid his rushes. In a clinch Hand again butted him with his head.

Blackie, his eyes blazing, leaped forward with a peavy handle in his hand. "You fight fair, d—d you, or I'll train you!" he shouted. One of the strikers attempted to wrest the peavy handle from his hands. Blackie told him with a blow of his fist. It looked for one tense moment as if there would be a general melee. There came sudden muttering from the crowd of strikers.

No knight of old ever fought more nobly for a fair lady's honour than did Donald McKenna that day by the lake-shore. His underhilt was torn to tatters, showing his white skin blotched with welts and bruises. He was losing his sense of direction. Swinging wildly with his left, his wrist struck Hand's adamantine jaw, and the onlookers saw his face writhe in pain as the arm fell helplessly to his side.

"He's broken 'is 'andle," groaned Andy.

"Oh, stop it, Andy, please stop it!" sobbed Connie, her arms held out in entreaty.

Donald's face turned a sickly grey and as the well-nigh sightless foreigner staggered weakly toward him, he with strength born of agony, raised his right to his forehead, and his big man's fingers, sagging jaw, sick slowly to hands and knees, then stretched at full length, his face pressing the soil, quivered and lay still. No sound came from the cowering Hand had been so stupefied by the blow that he stood as if a statue. Donald stood for an instant, awing uncertainly, then turned to stumble toward his cabin.

Blackie sprang to the top of a stump and swung his hat in the air. "Three cheers for our boss!" he yelled wildly.

A cheering cheer came from the crowd with a right good will.

"Boys, let's go back to work!" shouted Blackie.

"With you, Blackie?" they answered.

Gills reached Donald's side as he tottered into the cabin and caught him in his arms as he collapsed into unconsciousness. The big man picked him up tenderly and placed him on the bed.

"Donald's 'ot water and towels and telephone for Dr. Paul," commanded Andy tersely.

As Gills left to let Andy's commands, Connie fell on Dr. Paul's bed, the bedside and went with wild and passionate violence. "Oh, Donald! Donald!" she sobbed, "you fought for me, you saved me, you saved me!"

"Andy," turning her streaming eyes to the little man, "he won't die, will he? Will he won't die?"

With tears in his eyes and a heart full of sympathy, little Andy looked down on the recumbent form of the foreigner, and his face lit up.

Connie. "I'll be all right in a few days," he answered her in a choking voice.

PINEAPPLE JELLY

1 tablespoon gelatin.
1 cup cold water.
1 cup boiling water.

1 cup canned pineapple syrup.
3 tablespoons lemon juice.
1/2 cup sugar.

3 tablespoons pineapple cubes.
1/2 cup canned Maraschino cherries.
3 tablespoons cut walnut meats.
3 tablespoons cubes of orange.

Soak gelatin in cold water, 15 minutes. Add boiling water, and add pineapple syrup, lemon juice, and sugar.

When gelatin is beginning to get thick, stir in the fruit and nuts, of which there should be, in all, three-fourths of a cup. Turn into a mold, and chill.

MOCK DUCK (Norwegian)

2 pork tenderloins.
2 tablespoons butter.
1 cup sweet cream or very rich cream.

5 boiled prunes.
2 apples.
1 cup thick sour cream.

Salt and pepper.

Cut tenderloins half through lengthwise. Open and pound flat. Cut apples in this slice, cover the tenderloin. Remove stones from prunes and put over apples, add seasonings and cover all with second tenderloin. Roll and tie securely. Brown in fat. Pour on a little butter, the sweet and sour cream, and cook slowly for one hour.

Put tenderloins half through lengthwise. Open and pound flat. Cut apples in this slice, cover the tenderloin. Remove stones from prunes and put over apples, add seasonings and cover all with second tenderloin. Roll and tie securely. Brown in fat. Pour on a little butter, the sweet and sour cream, and cook slowly for one hour.

"Back!" John Miller's voice rang out sharp and clear. "I'll kill the first man that interferes!" The eyes shining over the long-barreled gun, he aimed a dangerous grin. The men who had moved to the centre backed away nervously.

Back and forth the combatants struggled, neither gaining any decided advantage, each trying to land a blow that would end the battle. Reeling, gasping, striking, falling to their knees from their weakness, the men fought on under a burning noonday sun.

No knight of old ever fought more nobly for a fair lady's honour than did Donald McKenna that day by the lake-shore. His underhilt was torn to tatters, showing his white skin blotched with welts and bruises. He was losing his sense of direction. GINGIVITIS

Meaning what?
It is—a nuisance, implying inflammation and gingivitis—the soft tissue immediately encircling the tooth.
This, then, is an inflammatory condition of the gum tissue, adjoining the teeth.

Consult your mirror: Notice how many of the gum tissue, the soft tissues in health, filling the interstices and guarding the supporting structures from injury and disease.
Now you will have observed that the gingivitis are not attached to the tooth surfaces for a short distance down and hence, are "free", also, that their color in health is a lustrous pink.

But the inflammation appearing, you have a rush of blood within—and disease develops, so that you really perceive that they are far from state of health.

Now what might cause this?
It may be that some body disturbing the accounts. Gingivitis is health, diseases of organs or glands concerned in body welfare such as diabetes, or run down nervous system.

Among the more positive causes, fifth and tartar no doubt play a part: the weightiness of food between teeth with faulty contacts, and disease of the internal organs are all held responsible.

If, for any reason, there is a slight swelling between two teeth, food which is tough and stringy will do it. A simple quick occurrence may do but little harm provided the swelling is promptly removed, but where there is a constant pressure and irritation, the tissue is inflamed much of the time, and the swelling is permanent.

"Tartar" upon these tissues or repeated injuries from whatever source will set up this process.

It is in these gingival tissues then, that the bacteria find a way, which, if neglected, frequently leads to the infection of the blood stream.

Belongs To Middle Class

Is Ordinary Star In Scale Of Brilliance Says Astronomer

"The sun is a very humble unit in the great stellar population according to A. S. Eddington, the astronomer. It is, he says, a very ordinary star about midway in the scale of brilliancy. We know of stars which, give at least 10,000 times the light of the sun, we know also of stars which give 1/10,000 of its light. But those of inferior light greatly outnumber those of superior light."

In mass, in surface temperature, in bulk, the sun belongs to a very common class of stars. Its speed of motion is near the average; it shows none of the more conspicuous phenomena such as variability which excite the attention of astronomers. In the constancy of stars the sun corresponds to a respectable middle class citizen.

It is important to be quite near the centre of the local star cloud; but this apparently favored position is discounted by the fact that the star cloud itself is placed very considerably in relation to the galactic system (the Milky Way), being in fact near the center of it. We cannot claim to be at the hub of the universe.

Working or waiting, our souls will hang on him. And waiting, as we must recognize and remember, is a sacrifice of self, a real martyrdom, no less than working. To win the soul to patience, to bear the trial of life, to watch for the dawn through the chill hours which precede it, to keep fresh and unimpaired the great hope that Christ will come, is a witness to the powers of the unseen world, which the Spirit of God alone can make perfect.

LOCAL AND GENERAL

L. M. Jopling spent the week end in Calgary.

The ladies who served the lunch in the rink turned over the sum of \$81.05 to the curling club.

The hockey girls, in charge of Mrs. Hammell, held a party in the school on Friday evening which was a highly enjoyable affair.

The Ladies' Aid will meet at the Parsonage on Thursday, the last day of February, 28. The president requests a large turnout.

The Golden Rule Institute is giving an "Old Time Dance" in the Alston hall on March 1st. Free lunch provided by the Institute. Admission \$1.00.

F. Blachly's auction sale on Wednesday drew a good crowd and fair prices were realized for the offerings.

Lost—Three weeks ago, between Champion and A. Ferguson's farm a Ford tire and rim. Finder please return to Service Garage.

The O. E. S. dance held last week suffered from counter attractions, including the local bonspiel. An enjoyable evening was spent but the proceeds were not satisfactory.

K. R. McLean R.O., of Anderson & McLean, Sight Specialists, 208 8th Ave. West, Calgary, will make his monthly visit to Champion Thursday, Feb. 28th. At the Drug Store.

J. M. Moffatt has been in the hospital in Calgary for some days and it may be some little time before he returns home, although he is making satisfactory progress.

The Savoy Cafe, which is closed a few days for repairs will be reopened shortly. Included in the improvements will be a number of booths which will insure privacy for those who desire it.

At the meeting of the electors of Clear Lake on Saturday last W. M. Isomson was chosen to succeed Louis Miller, who retired after serving six years on the council. There was a fair attendance despite the very cold weather.

The provincial session in progress at Edmonton has produced some interesting debates, particularly with reference to the departments handled by Hon. Geo. Hoadley. The minister, however, evidently has the confidence of his colleagues.

A delegate from Champion will attend the Provincial P.T.A. meeting in Calgary March 1st.

The Bracken government in Manitoba is in a difficult position owing to cabinet members speculating in Winnipeg Electric stock while the company were negotiating with the government for the purchase of a power site.

The refreshments served during the local bonspiel by the ladies of the district was one of the big factors in the success of the affair. Take away this feature and the bonspiel would be gloomy indeed. In this instance the funds were turned over to the curling club, much to the gratification of the club officials who were struggling against a deficit.

Mrs. F. C. Alecock, District Director of the Women's Institutes for District No. 4 was present at Good Deeds W. I. of Vulcan which met in the United Sunday School room on St. Valentine's day.

In her address she told us of our being organized March 3, 1923—of the difficulties she had in getting there. It was her first institute to organize after being elected constituency convener of Little Bow. She complimented us on our growth and on our good deeds day on March 8th in the six districts, and also the treat given to the children, paid for from the funds of the Good Deeds W. I., and for the prizes given to these same schools for the best window boxes at the end of the school year. She advised working hard to have the health clinics held in all the outlying school districts, as they were doing splendid work. At least one woman should be on every school board to insist on the speaking and reading the English language in all schools. She spoke of one foreign community where as soon as the English teacher left at 3:30 another teacher, foreign speaking, took charge and a foreign flag was put up. Nothing but a foreign tongue was taught or spoken for an hour and a half. She asked us to do our best to remedy this, and also several crafts could be learned to good advantage from these people. Would also like to have us use our influence to have the bible studied in the schools in some form.

About thirty ladies were present to hear Mrs. Alecock. Beside Good Deeds ladies were present from Vulcan, Redlandview and Thigh Hill W. I's.

YOU ARE INVITED TO THE TWIN CITY POWER FARMING SCHOOL

The care and operation of Power Farming Machinery will be fully explained by men with factory and practical experience. You will get real money-saving information in their talks about:

TRACTORS THRESHERS GAS ENGINES

AND OTHER FARM MACHINES

MOVING PICTURES AND ILLUSTRATED CHARTS will show you how to service your machinery—how to make it last longer. Experts will answer your questions. Come and bring your boys and neighbors. This School is
